

1) Data Collected

Account identifiers, authentication logs, transaction activity, market activity, verification data, and technical telemetry.

2) Processing Purposes

Platform operation, fraud prevention, compliance, dispute handling, product support, and security.

3) Data Sharing

Data may be shared with payment providers, identity/KYC vendors, compliance partners, cloud providers, auditors, and authorities where legally required.

4) Retention

Records are retained according to legal, compliance, security, and operational requirements.

5) Security

BetNet applies technical and organizational controls, but no system is guaranteed to be completely secure.

6) User Rights

Subject to law, users may request access/correction/deletion of certain data. BetNet may retain records where legally required.

7) Google Sign-In Data

When you sign in with Google, BetNet may receive your Google account email address, name, profile picture, and Google account identifier.

BetNet uses this data only to authenticate users, create and manage accounts, protect account security, and provide access to BetNet features.

BetNet does not sell Google user data, does not use Google user data for advertising, and does not use Google user data to train AI models.

Google user data may be shared only with service providers where necessary to operate, secure, or support the platform.

Users may request deletion of their account and associated personal data by contacting support.
